ANNUAL | 2025
REPORT

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the Directors collectively and individually accept full responsibility, includes particulars given in compliance with the GEM Listing Rules for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

CHAIRMAN'S STATEMENT

Dear Shareholders,

2025 marked a pivotal year of transition for eBroker. The Group generated HK\$27.1 million in revenue, reflecting softer market demand, while our loss attributable to owners widened to HK\$3.7 million. We also recognised essential impairments – including HK\$1.085 million on property and equipment and HK\$0.45 million on intangible assets.

Our LBITDA for the year was approximately HK\$0.53 million, reflecting a disciplined cost structure despite a challenging business environment.

Yet, these financial results set against a backdrop of profound technological progress. Our proprietary eBrAI^{ny} AI platform continued to evolve – powered by AI models that analyse vast datasets, generate consensus insights, and drive the training of hundreds of thousands of AI-driven Investbots across global markets. These intelligent systems mark a major leap forward in automated market monitoring, investment strategy formation, and decision intelligence.

We also advanced our infrastructure by bringing AI workloads onto in-house servers with Agentic AI, enhancing efficiency, data security, and long-term scalability.

Looking forward, our vision is clear:

To transform eBroker into an AI-first financial technology engine – an innovation platform that empowers institutions, advisors, and investors through automation, insight, and intelligent resilience.

Thank you for your trust and continued support.

Chan Lap Tak, Douglas

Chairman

Hong Kong, 23 March 2026

BUSINESS REVIEW

The Group is principally engaged in the provision of financial software solution services to primarily financial institutions (including mainly brokerage firms, proprietary trading firms and wealth management companies) in Hong Kong. The Group derives its revenue mainly from front office solution services, back office solution services, installation and customisation services, managed cloud services and other services income.

For the year ended 31 December 2025, the Group recorded a revenue of approximately HK\$27.1 million, representing a decrease of approximately 13.2% from approximately HK\$31.2 million recorded for the year ended 31 December 2024. Loss attributable to owners of the Company for the year ended 31 December 2025 amounted to approximately HK\$3.7 million, representing an increase of approximately 37.2% as compared with the loss of approximately HK\$2.7 million for the year ended 31 December 2024 mainly due to the decrease of revenue of approximately HK\$4.1 million.

OUTLOOK

Looking to 2026, the present macro landscape will remain volatile due to uncertainties in geopolitical tensions, rapid technological changes and increasing multipolar world. The Group will continue to manage these risks while leveraging technology and innovation to pursue sustainable growth and long-term shareholder value.

FINANCIAL REVIEW

Revenue

The Group derives its revenue primarily from the provision of financial technology solutions which can be classified into (i) front office solution service; (ii) back office solution service; (iii) installation and customisation services; (iv) managed cloud service and (v) other services income. For the year ended 31 December 2025, the Group recorded revenue of approximately HK\$27.1 million, representing a decrease of approximately 13.2% as compared with the previous year of approximately HK\$31.2 million. Such decrease was mainly attributable to the significant decrease in the revenue from front office solution services. The revenue from front office solution service decreased by approximately 11.5% from approximately HK\$15.5 million for the year ended 31 December 2024 to approximately HK\$13.7 million for the year ended 31 December 2025 due to adverse business and economic conditions. The revenue from installation and customisation services decreased by approximately 30.4% from approximately HK\$3.2 million for the year ended 31 December 2024 to approximately HK\$2.2 million for the year ended 31 December 2025 mainly due to a decrease in demand for customization services. The income from managed cloud service decreased by approximately 20.9% from approximately HK\$1.9 million for the year ended 31 December 2024 to approximately HK\$1.5 million for the year ended 31 December 2025. Other services income increased by approximately 27.6% from approximately HK\$1.3 million for the year ended 31 December 2024 to approximately HK\$1.7 million for the year ended 31 December 2025 due to an increase in product sales.

Purchases of and Changes in Inventories

The Group's purchases of and changes in inventories for the year ended 31 December 2025 increased by approximately HK\$0.7 million. Such increase was primarily due to increase of approximately HK\$0.8 million in product sales of the Group for the year ended 31 December 2025.

Loss/Profit before Tax

The Group's loss before tax for the year ended 31 December 2025 was approximately HK\$3.9 million, representing an increase by approximately 33.6% when compared with its loss before tax of approximately HK\$2.9 million for the year ended 31 December 2024. This was primarily due to (i) a decrease of revenue by approximately HK\$4.1 million; and (ii) a decrease of staff costs by approximately HK\$2.7 million.

MANAGEMENT DISCUSSION AND ANALYSIS

Other Income

The Group's other income consists of interest income on bank deposits, government subsidies and dividend income. The Group's other income decreased by approximately HK\$20,000 from approximately HK\$1.4 million for the year ended 31 December 2024.

Staff Costs

For the year ended 31 December 2025, the Group's staff costs net of capitalization of approximately HK\$3.4 million were approximately HK\$18.9 million, representing a decrease of approximately 12.3% over the staff costs of approximately HK\$21.6 million for the year ended 31 December 2024. The decrease was primarily due to the decrease in salaries, bonus and allowances of approximately HK\$2.6 million.

Depreciation

The Group's depreciation expenses increased to approximately HK\$2.4 million for the year ended 31 December 2025 representing an increase of approximately 1.8% from approximately HK\$2.3 million for the year ended 31 December 2024. The increase was primarily due to the increase in depreciation on rights-of-use assets of approximately HK\$41,000 during the year ended 31 December 2025.

Other Operating Expenses

The Group's other operating expenses mainly include (i) cost of services; (ii) legal and professional fees; and (iii) office expenses. The Group's other operating expenses for the year ended 31 December 2025 were approximately HK\$11.3 million, representing an increase of approximately 2.2% over the other operating expenses of approximately HK\$11.1 million for the year ended 31 December 2024.

Income Tax Credit

The Group's income tax credit for the year ended 31 December 2025 was approximately HK\$214,000, representing a decrease of approximately HK\$19,000 from tax credit of approximately HK\$233,000 for the year ended 31 December 2024.

Loss for the year attributable to owners of the Company

Loss attributable to owners of the Company for the year ended 31 December 2025 amounted to approximately HK\$3.7 million, representing an increase of approximately 37.2% as compared with the loss of approximately HK\$2.7 million for the year ended 31 December 2024. The increase was primarily attributable to the decrease of revenue of approximately HK\$4.1 million for the year.

LIQUIDITY AND FINANCIAL RESOURCES

The Group adopts conservative treasury policies and control tightly over its cash and risk management. The Group's operations are financed mainly by cash generated from operations. The Group recorded net current assets of approximately HK\$34.1 million as at 31 December 2025 (2024: HK\$37.4 million).

As at 31 December 2025, the Group's current assets amounted to approximately HK\$43.6 million (2024: HK\$44.0 million) of which approximately HK\$11.4 million was trade and other receivables (2024: HK\$15.4 million); and approximately HK\$16.3 million was bank and cash balances (2024: HK\$9.6 million).

As at 31 December 2025, the Group had no interest-bearing and non-interest bearing borrowing. On the same date, the Group had no banking facilities and unused unsecured banking facilities. There is no material seasonality of borrowing requirements for the Group.

Given that there was no interest-bearing borrowing as at 31 December 2025 and 31 December 2024, the gearing ratio is not applicable for analysis.

PRINCIPAL RISKS AND UNCERTAINTIES

The Group's operations are subject to certain risks and the major ones that may have a material and adverse effect on the Group's business, financial conditions and results of operations include: (i) the Group's research and development may not be able to catch up with technological advancements which are important for the Group to maintain its competitiveness; and (ii) the Group may be unable to collect its trade receivables in a timely manner and have to record impairment losses. In addition, the Group's activities are exposed to a variety of financial risks including, credit risk, liquidity risk and interest rate risk.

CAPITAL STRUCTURE

The Shares were listed on GEM of the Stock Exchange on 19 February 2019. There has been no change in the capital structure of the Company since then. As at 31 December 2025, the capital structure of the Company comprised mainly of issued share capital and reserves.

PLEDGE OF ASSETS

As at 31 December 2025, the Group had no pledged or charge on asset.

MATERIAL INVESTMENTS, ACQUISITIONS AND DISPOSALS

The Group had not made any significant investments or material acquisitions and disposals of subsidiaries during the year ended 31 December 2025 and the year ended 31 December 2024.

CAPITAL COMMITMENTS AND CONTINGENT LIABILITIES

As at 31 December 2025, the Group did not have any material capital commitments and contingent liabilities.

EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES

The Group's foreign currency risk is primarily attributable to other receivables and deposits, bank balances, and financial assets at fair value through profit or loss and trade payables in Renminbi as set out in note 6(a) to the consolidated financial statements, the Directors continuously monitor the related foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

EXPOSURE TO CREDIT RISK

The Group's credit risk is primarily attributable to bank balances, non-pledged time deposits with original maturity within three months, trade receivables and contract assets, other receivables and deposits as set out in note 6(b) to the consolidated financial statements. Our management does not expect significant credit risk as all bank balances are placed with banks with good credit rating and the Group has a comprehensive credit policy in place.

EXPOSURE TO LIQUIDITY RISK

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The maturity analysis based on contractual undiscounted cash flows of the Group's non-derivative financial liabilities is set out in note 6(c) to the consolidated financial statements.

EXPOSURE TO INTEREST RATE RISK

The Group's exposure to interest rate risk arises from its bank balances, non-pledged time deposits with original maturity within three months and lease liabilities. The lease liabilities bear interests at variable rates varied with the then prevailing market condition. The Group's non-pledged time deposit with original maturity within three months and lease liabilities bear interests at fixed interest rate and therefore are subject to fair value interest rate risk. The Group does not have significant exposure on interest rate risk. Except as stated above, the Group has no other interest-bearing assets and liabilities as at the end of the reporting period, its income and operating cash flows are substantially independent of changes in variable interest rates.

HUMAN RESOURCES AND REMUNERATION POLICIES

As at 31 December 2025, the Group had a workforce of 51 (2024: 53) full-time employees. The remuneration of the Group's employees is determined depending on a number of factors, including their qualifications, function, experience, work performance and local market conditions. The Group regularly reviews its compensation and benefit policies to ensure that the remuneration package offered remains competitive and in line with relevant labour regulations. For the year ended 31 December 2025, the total employee benefit expenses (including salaries, bonuses, allowances, pension cost on long service payment, equity-settled share-based payment and retirement benefit scheme contributions) of the Group after capitalization of approximately HK\$3.4 million (2024: HK\$3.3 million) to intangible assets was approximately HK\$18.9 million (2024: HK\$21.6 million). The Company has adopted a share option scheme on 22 January 2019 to enable the Company to grant options to, amongst others, the employees and directors of the Group. To recognise and reward the eligible employees for their contributions to the business and development of the Group, the Company has adopted a share award scheme on 12 August 2019.

MANAGEMENT DISCUSSION AND ANALYSIS

SIGNIFICANT INVESTMENTS HELD, MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES, AND FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

The Company did not have any significant investments as at 31 December 2025. Save as disclosed in this annual report, and the events after the reporting period as set out in note 39 to the consolidated financial statements, there were no other significant investments held, no material acquisitions or disposals of subsidiaries, associates and joint ventures during the year, nor was there any plan authorised by the Board for material investments or additions of capital assets.

DIRECTORS' REPORT

The Directors are pleased to present their annual report and the audited consolidated financial statements of the Company and its subsidiaries for the year ended 31 December 2025.

CORPORATE REORGANISATION AND LISTING

The Company was incorporated in the Cayman Islands as an exempted company with limited liability on 23 May 2016 under the Companies Law. Pursuant to a reorganisation of the Group in preparation for the listing of the Shares on GEM of the Stock Exchange, the Company became the holding company of the companies now comprising the Group. Details of the corporate reorganisation are set out in the section headed "History, Reorganisation and Group Structure" in the Prospectus. The Shares were listed on GEM of the Stock Exchange on 19 February 2019.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The principal activity of the Company is investment holding. The principal activities of the subsidiaries comprise the provision of financial technology solutions to primarily financial institutions. Details of the principal activities of the subsidiaries are set out in note 22 to the consolidated financial statements. There were no significant changes in the nature of the Group's principal activities during the year ended 31 December 2025.

Further discussion and analysis of these activities as required by Schedule 5 to the Companies Ordinance, including a fair review of the Group's business, a description of the principal risks and uncertainties facing the Group and an indication of likely future development in the Group's business, can be found in the "Chairman's Statement" and "Management Discussion and Analysis" set out on pages 3 to 6 of this report. The discussion forms part of this Directors' report.

RESULTS AND DIVIDENDS

The Group's profit for the year ended 31 December 2025 and the Group's financial position at that date are set out in the consolidated financial statements on pages 30 to 31 respectively of this report.

The Company has adopted a general dividend policy on 25 March 2019, pursuant to which the Company may declare and distribute dividends to allow Shareholders to participate in the Company's profits and for the Company to retain adequate reserves for further growth. In deciding whether to recommend the payment of dividend to Shareholders, the Board shall take into account, inter alia, the following factors:

- the general financial condition of the Group;
- the Group's actual and future operations and liquidity position;
- the Group's expected working capital requirements and future expansion plans;
- the Group's debt to equity ratios and the debt level;
- any restrictions on payment of dividends that may be imposed by the Group's lenders;
- the retained earnings and distributable reserves of the Company and each of the members of the Group;
- the Shareholders' and the investors' expectation and industry's norm;
- the general market conditions; and
- any other factors that the Board deems appropriate.

The Company does not have any pre-determined dividend distribution proportion or distribution ratio. The declaration, payment and amount of dividends will be subject to the Board's discretion. The Board will review the dividend policy of the Company on a regular basis.

The Board does not recommend the payment of a final dividend for the year ended 31 December 2025 (2024: Nil).

There is no arrangement that a Shareholder has waived or agreed to waive any dividends.

- (4) Financial Data Technologies, is beneficially wholly owned by Mr. Nie Lehui.
- (5) Bank of Communications Trustee Ltd is the trustee appointed by the Company in relation to the share award scheme adopted by the Company on 12 August 2019.

Save as disclosed above, as at 31 December 2025, the Company had not been notified by any persons (other than the Directors or chief executive of the Company) who had interests or short positions in the Shares or underlying shares or debentures of the Company which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO, or which were required, pursuant to section 336 of the SFO, to be recorded in the register referred to therein.

SHARE OPTION SCHEME

The Company has conditionally adopted a share option scheme (the “**Scheme**”) pursuant to the resolutions passed by the Shareholders at an extraordinary general meeting held on 22 January 2019. The Company operates the Scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group’s operations. Eligible participants of the Scheme include directors (including executive directors, non-executive directors and independent non-executive directors) and employees of any member of the Group and any advisers, consultants, distributors, contractors, suppliers, agents, customers, business partners, joint venture partners, promoters, service providers of any member of the Group. The Scheme, unless otherwise cancelled or amended, will remain in force for 10 years after the date on which the Scheme is adopted. As at 31 December 2025, the remaining life of the Share Option Scheme is approximately 3 years.

The total number of securities available for issue under the Scheme is 123,000,000 ordinary Shares, being 10% of the issued Shares of the Company as at the date of this report. The maximum number of share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the ordinary Shares in issue at any time. The maximum number of shares issuable under share options granted to each eligible participant in the Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to Shareholders’ approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive Directors. In addition, any share options granted to a substantial Shareholder or an independent non-executive Director, or to any of their associates, in excess of 0.1% of the Shares in issue at any time or with an aggregate value (based on the closing price of the Company’s shares at the date of grant) in excess of HK\$5 million, within any 12-month period, are subject to Shareholders’ approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 28 days from the date of grant. A consideration of HK\$1.00 is payable on the acceptance of the offer of grant of an option. The exercise period of the share options granted is determinable and notified by the directors, but shall end not later than 10 years from the date on which the share option is deemed to be granted and accepted in accordance with the Scheme. The vesting period under the Scheme is determinable by the Board as it deems appropriate in its absolute discretion.

The exercise price of share options is determinable by the Directors, but may not be less than the higher of (i) the Stock Exchange closing price of the Shares on the date of offer of the share options which must be a Business Day; (ii) the average Stock Exchange closing price of the Shares for the five Business Days immediately preceding the date of offer; and (iii) the nominal value of the Shares on the date of the offer.

Share options do not confer rights on the holders to dividends or to vote at general meetings.

The terms of the Scheme are in accordance with the provisions of Chapter 23 of the GEM Listing Rules. Details of the Scheme are set out in the paragraph headed “Share Option Scheme” in Appendix V to the Prospectus.

No share option has been granted since the adoption of the Scheme.

SHARE AWARD SCHEME

On 12 August 2019, the Company adopted the Share Award Scheme. The Shares under the Share Award Scheme will be acquired by Bank of Communications Trustee Limited as trustee appointed by the Company by way of subscription of new shares (whether pursuant to general mandate or specific mandate granted by the Shareholders or otherwise) and/or purchase of shares from the market out of the funds contributed by the Group and be held on trust for the participants until such awarded Shares are vested in the relevant selected participants in accordance with the rules of the Share Award Scheme. Eligible participants include any employee (including but not limited to any executive director) of any member of the Group (other than any excluded employee) whom the Board selects to grant award Shares. Subject to any early termination as may be determined by the Board by resolution, the Share Award Scheme shall be valid and effective for a term of 10 years commencing from the date of adoption of the Share Award Scheme. The Board shall not make any further award of awarded shares which will result in the total number of issued Shares awarded by the Board under Share Award Scheme exceeding 10% of the total number of issued Shares (being 123,000,000 Shares) from time to time. The maximum number of Shares which may be awarded to one selected person under the Share Award Scheme shall not exceed 1% of the issued share capital of the Company from time to time. Selected grantees are not required to make any payment to accept award Shares and there is no purchase price under the Scheme. The vesting period under the Share Award Scheme is determinable by the Board as it deems appropriate in its absolute discretion. As at 31 December 2025, the remaining life of the Share Award Scheme is approximately 3.5 years.

During the year ended 31 December 2025, the trustee of the Share Award Scheme, pursuant to the terms of the rules and trust deed of the Share Award Scheme, did not make any purchase of Shares on the Stock Exchange. As at 31 December 2025, there were 82,905,000 Shares held by the trustee pursuant to the Share Award Scheme.

On 13 May 2024, the Board has resolved to grant an aggregate of 5,040,000 award Shares, all in the form of existing Shares, to 13 selected persons under the Share Award Scheme. Subject to the satisfaction of the vesting conditions, 2,520,000 of these award Shares shall be vested to the respective selected persons on 31 December 2024 (however, the Board has decided to defer the vesting date of 285,000 of these awarded shares to 30 June 2025) and the remaining 2,520,000 of the award shares shall be vested to the respective selected persons on 31 December 2025. For details, please refer to the Company's announcement dated 13 May 2024.

As at 1 January 2025 and 31 December 2025, being the beginning and the end of the year under review, the number of award Shares available for grant under the Share Award Scheme shall be 82,905,000 and 80,100,000 respectively, representing approximately 6.74% and 6.51% of the Company's issued share capital as at that date respectively.

Details of the movements in award Shares under the Share Award Scheme during the year ended 31 December 2025 are as follows:

Name or category of participants	Date of grant	Vesting date	Number of unvested award Shares				As at 31 December 2025
			As at 1 January 2025	Granted during the year	Vested during the year	Lapsed/Cancelled during the year	
Employees	13 May 2024	31 December 2025	2,805,000	-	2,805,000	-	-

Notes:

- The award Shares were granted at nil consideration. The closing price of Shares immediately before the date on which the award Shares granted on 13 May 2024 was HK\$0.08 per award Share. The fair value of the award Shares granted on 13 May 2024 was HK\$0.08 per share, which was determined based on the market price of the Shares as at the date of grant. The amount to be expensed as share-based compensation expenses is determined by reference to the fair value of the award Shares granted, taking into account all non-vesting conditions associated with the grants on grant date.
- The weighted average closing price of the Shares immediately before 31 December 2025 on which the awarded Shares were vested was HK\$0.08.
- There is no performance target attached to the award Shares.
- There are no participants with awarded Shares granted in excess of the individual limit and no grants to related entity and suppliers of good and services.
- The vesting period of the awarded Shares refers to the period from the date of grant until the date of vesting.

No share option and share award have been granted under the Share Option Scheme and Share Award Scheme during the year ended 31 December 2025.

Any committee so formed shall, in the exercise of the powers, authorities and discretions so delegated, conform to any regulations which may be imposed on it by the Board.

Regular meetings of the Board will be held to deliberate the strategic policies of the Company including significant acquisitions and disposals, review and approve annual budgets, review the performance of the business and approve the public release of periodic financial results. Directors are also provided with access to independent professional advice in carrying out their obligations as Directors as and when required, at the expense of the Company.

Appointment and Re-election of Directors

Each executive Director has entered into a service contract with the Company for a term of three years and each independent non-executive Director has entered into a letter of appointment for a term of three years. Each Director is subject to retirement by rotation at least once every three years but is eligible for re-election at an annual general meeting in accordance with the Articles.

CORPORATE GOVERNANCE REPORT

The Articles specify that any Directors appointed during the year to fill a casual vacancy are subject to re-election by Shareholders at the first general meeting after such appointments and any Directors appointed by the Board as an addition to the existing Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election.

None of the Directors proposed for re-election at the forthcoming annual general meeting has a service contract or letter of appointment with the Company which is not determinable by the Company within one year without payment of compensation, other than statutory compensation. The Company has also taken out Directors' and Officers' liabilities insurance for such purposes with effect from the Listing.

Independent Non-executive Directors

During the Relevant Period, the Board at all times met the requirements of the GEM Listing Rules relating to the appointment of at least three independent non-executive Directors, representing at least one-third of the Board with one of whom possessing appropriate professional qualifications or accounting or related financial management expertise.

The Company has received written annual confirmation from each of the independent non-executive Directors in respect of his independence in accordance with the independence guidelines set out in Rule 5.09 of the GEM Listing Rules. The Company is of the view that all independent non-executive Directors are independent.

During the Relevant Period, the Board also reviewed the implementation and effectiveness of mechanisms to ensure independent views and input are available to the Board. Taking into account, among others, the size, structure, composition of the Board and the annual meeting between the Chairman and all independent non-executive Directors without the presence of other Directors which has provided an effective platform for the Chairman to listen to independent views on various issues concerning the Group, the Board considered that the Company had in place mechanisms which remain effective to ensure a strong independent element on the Board.

Continuous Professional Development of Directors

During the year ended 31 December 2025, the Directors have participated in continuous professional development by attending a training session in respect of the roles and responsibilities of directors of a company listed on the GEM, as well as reading related materials. They also received from the Company from time to time updates on laws, rules and regulations which may be relevant to their roles, duties and functions as directors of a listed company. Particulars of participation by the Directors are set out as follows:

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Under code provision C.2.1 of the CG Code, the roles of chairman and chief executive officer should not be performed by the same individual. The Directors recognise the importance of good corporate governance in management and internal procedures so as to achieve effective accountability. During the Relevant Period, the Group has complied with the CG Code, Mr. Chan currently holds the role of chairman and Mr. Lo holds the role of chief executive officer of the Company.

BOARD COMMITTEES

In order to assist the Board in discharging its duties in a more efficient manner, the Board has established, with written terms of reference, three Board committees, namely the audit committee, remuneration committee and nomination committee, to oversee particular aspects of the Company's affairs. The Board committees are provided with sufficient resources to discharge their duties. The written terms of reference for each Board committee are in compliance with the GEM Listing Rules and they are posted on the websites of the Stock Exchange and the Company.

Audit Committee

The Company established an audit committee on 19 June 2018 in compliance with Rule 5.28 of the GEM Listing Rules. Written terms of reference in compliance with Rule 5.29 of the GEM Listing Rules and code provision D.3.3 of the CG Code have been adopted. The primary duties of the audit committee are mainly to make recommendations to the Board on appointment, reappointment and removal of the external auditor, review and supervise the financial reporting process and the financial controls, internal control and risk management systems of the Company.

The audit committee of the Company consists of three independent non-executive Directors, being Mr. Au Yeung Po Fung, Mr. Chan Chi Kwong Dickson and Mr. Liu Kin Sing. Mr. Au Yeung Po Fung is the chairman of the audit committee.

The Audit Committee held two meetings in the year ended 31 December 2025, to review, the interim, quarterly and annual financial results and reports and significant issues on the financial reporting, operational and compliance controls, the effectiveness of the risk management and internal control systems, and continuing connected transactions.

During the Relevant Period, the chairman of the Audit Committee also met the external auditors twice without the presence of the executive Directors.

Nomination Committee

The Company established a nomination committee on 19 June 2018. Written terms of reference in compliance with code provision B.3.1 of the CG Code have been adopted. The primary duties of the nomination committee are to review the structure, size and composition (including the skills, knowledge, length of service and the breadth of expertise) of the Board and make recommendations to the Board on any proposed changes to the Board to complement the Company's corporate strategy; identify individuals suitably qualified as potential Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships; to assess the independence of independent non-executive Directors; and make recommendations to the Board on the appointment or reappointment of Directors and succession planning of Directors, in particular that of the chairman and the chief executive.

The nomination committee of the Company consists of one executive Director and two independent non-executive Directors, being Mr. Chan Lap Tak, Douglas, Mr. Chan Chi Kwong Dickson and Mr. Liu Kin Sing. Mr. Chan Lap Tak, Douglas is the chairman of the nomination committee.

The Board recognises the importance of its diversity in relation to its business, and on 19 June 2018 adopted a Board diversity policy (the **"Diversity Policy"**). As a summary of the Diversity Policy, the selection of candidates has been considered from a number of aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. As an objective of the Group's diversity policy, the Board shall consist of at least one member with financial or accounting expertise. During the year ended 31 December 2025, the above objective has been achieved. All Board appointments will be based on meritocracy, and will be considered against objective criteria, having due regard for the benefits of diversity on the Board. The ultimate decision of Board appointment will be based on merit and contribution that the selected candidates will bring to the Board.

The Board has achieved gender diversity as it currently has one female executive Director. The Board will maintain at least one female Director to be a member of the Board. The Company will continue to proactively provide training to our senior management and will take into account the factor of gender diversity when recruiting suitable candidates for our senior management in the future, so to develop a pipeline of potential successors for the Board and enhance gender diversity in the Board in the coming years. The Company may also engage resources to identify potential successors for the Board and enhance gender diversity in the coming years, if necessary.

From the Group's perspective, as at 31 December 2025, the female-to-male ratio of the Group's employees is approximately 0.43. The Group is determined to maintain gender diversity and equality in terms of the whole workforce and expects the above is achievable with suitable effort in promoting the gender diversity culture, which the Group has been advocating for.

The nomination committee met once during the Relevant Period to review among other things, the independence of the independent non-executive Directors; consider the qualifications of the retiring directors standing for election at the 2026 annual general meeting; review the structure, size and composition of the Board and review the Board diversity policy adopted by the Company. In identifying and selecting suitable candidates for directorships, the nomination committee would consider various factors including the candidate's character, qualifications, experience, independence and other relevant criteria necessary to complement the corporate strategy and achieve Board diversity, where appropriate, before making recommendation to the Board. Having reviewed the composition of the Board, the nomination committee considered that there is an appropriate balance of Board diversity.

CORPORATE GOVERNANCE REPORT

Remuneration Committee

The Company established a remuneration committee on 19 June 2018 in compliance with Rule 5.34 of the GEM Listing Rules. Written terms of reference in compliance with Rule 5.35 of the GEM Listing Rules and code provision E.1.2 of the CG Code have been adopted. The primary duties of the remuneration committee are to make recommendations to the Board on the remuneration policy and the structure relating to all Directors and senior management of the Group, review the remuneration packages of the Directors and senior management of the Group and ensure none of the Directors determine their own remuneration and consider and approve the grant of award shares and share options to eligible participants pursuant to the Share Award Scheme and the Share Option Scheme. No Director or any of his associates were involved in deciding his own remuneration.

The remuneration committee of the Company consists of three Directors, being Mr. Liu Kin Sing, Mr. Au Yeung Po Fung and Mr. Chan Lap Tak, Douglas. Mr. Liu Kin Sing is the chairman of the remuneration committee.

For the year ended 31 December 2025, the remuneration committee met once during the Relevant Period to (i) review and make recommendation to the Board on the remuneration policy and the remuneration packages of the executive Directors and senior management of the Company, determined with reference to their duties and responsibilities, the business performance and profitability of the Group, prevailing market conditions, the corporate objectives and goals set by the Board, and (ii) the overall remuneration policy, procedures, and structure for fixing remuneration packages.

Pursuant to code provision B.1.5 of the CG Code, details of the remuneration of the senior management (other than Directors) by bands for the year ended 31 December 2025 are as follows:

	Number of employees
Nil to HK\$1,000,000	1

Corporate Governance Functions

The Board as a whole is responsible for performing the corporate governance functions set out in code provision A.2.1 of the CG Code, namely:

- (i) to develop and review the Company's policies and practices on corporate governance;
- (ii) to review and monitor the training and continuous professional development of Directors and senior management;
- (iii) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;
- (iv) to develop, review and monitor the code of conduct and compliance manual (including in relation to securities trading) applicable to employees and Directors; and
- (v) to review the Company's compliance with the CG Code and disclosure in the corporate governance report in the Company's annual reports.

During the Board meeting on 23 March 2026, the Board reviewed the corporate governance measures of the Group and this corporate governance report.

Board meetings and attendance record of Directors

Code provision C.5.1 of the CG Code states that at least four regular Board meetings should be held each year at approximately quarterly intervals with active participation of a majority of Directors, either in person or through other electronic means of communication.

The Board reviewed the Company's corporate governance policies and practices, training and continuous professional development of directors and senior management, the Company's policies and practices on compliance with legal and regulatory requirements, the compliance of the Model Code, and the Company's compliance with the CG Code and disclosure in this corporate governance report.

The attendance record of each Director at the Board meetings, committee meetings and annual general meeting held during the Relevant Period is set out in the table below:

COMPANY SECRETARY

Mr. Liew Swee Yean (“**Mr. Liew**”), the Company’s company secretary, has undertaken no less than 15 hours of relevant professional training to update his skills and knowledge in respect of the year ended 31 December 2025.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules.

Specific enquiry has been made with all the Directors, and the Directors have confirmed that they have complied with the Model Code throughout the Relevant Period.

During the year ended 31 December 2025, the Company is not aware of any incident of non-compliance of the Model Code by the Directors.

DIRECTORS’ AND AUDITORS’ RESPONSIBILITY FOR ACCOUNTS

The Directors acknowledge their responsibility for the preparation of consolidated financial statements of the Group for the year ended 31 December 2025 under applicable statutory and regulatory requirements, which give a true and fair view of the state of affairs, profit or loss and cash flow of the Group on a going concern basis.

Statements of Directors’ responsibilities for preparing of the consolidated financial statements of the Group and external auditors’ responsibilities for the audit of the consolidated financial statements are set out in the “Independent Auditor’s Report” in this report.

AUDITOR’S REMUNERATION

The fees paid or payable to the external auditor of the Group, Gary Cheng CPA Limited and its affiliated firm, for the year ended 31 December 2025 are as follows:

For the year ended 31 December 2025, the fees paid to Gary Cheng CPA Limited for the audit of the annual financial statements of the Group were HK\$650,000 (excluding the expenses on the non-audit service provided by Gary Cheng CPA Limited, if any).

No non-auditing services fees charged by Gary Cheng CPA Limited for the year ended 31 December 2025.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges its responsibility for the effectiveness of the Group’s risk management and internal control systems in order to safeguard the Group’s assets and the Shareholders’ interest and conducts a review on an annual basis. The main features of the risk management and internal control systems of the Group include the identification of risks, the assessment and evaluation of risks, the development and continuous updating of mitigation measures, and the ongoing review of internal control procedures to ensure their effectiveness in aspects of the Group’s financial, operational, compliance controls and risk management functions.

The Group has also established an organisational structure in such control systems, clearly defining the power and obligations of each department in the Group, in order to protect the Group’s assets against improper use and ensure compliance with rules and regulations. Such risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable but not absolute assurance against material misstatement or loss.

Process used to identify, evaluate and manage significant risks

The Group’s risk management process involves the identification, evaluation, response, monitoring and reporting of risks. After risks that may potentially affect the Group’s business and operations are identified by the management of the Company, the Board will perform a risk assessment by prioritising risks identified to determine key risks exposed to the Group and discuss measures to mitigate such key risks. Besides, existing risk mitigation measures are subject to regular monitoring by the management of the Company, which will review the Group’s risk management strategies, and report such results and make appropriate suggestions to the Board.

Risk Register

The risks identified are evaluated with a risk matrix which prioritises risks according to the likelihood of their occurrence and the significance of their impact on the achievement of the Group’s business objectives. Following the review of the risk matrix, the Group selects and deploys the corresponding risk responses and investigates the mitigation procedures to be executed to ensure the identified significant risks were managed to an acceptable level.

CORPORATE GOVERNANCE REPORT

Independent Assessment

To ensure the independent review of the effectiveness of the risk management and internal control systems, the Group engaged an independent external consulting firm as the Group's internal control adviser to perform an annual review and assessment of the risk management and internal control system of the Group covering the financial year ended 31 December 2025. The Group has carried out risk-oriented internal control evaluation on financial reporting and disclosure control process, revenue and receivable process, and expenditure and payable.

Review of the Effectiveness

The management and the Audit Committee have reviewed the internal control evaluation report and have evaluated the effectiveness of the Group's risk management and internal control systems. The Board and the Audit Committee are satisfied with the adequacy and effectiveness of the risk management and internal control of the Group. The review covers all material controls, including financial, operational and compliance controls. The Group does not have an internal audit function and is of the view that there is no immediate need to set up an internal audit function within the Group in light of the size, nature and complexity of the Group's business. The Board and the Audit Committee will reconsider the need for an internal audit function from time to time.

Handling and Dissemination of Inside Information

With respect to procedures and internal controls for the handling and dissemination of inside information, the Company is aware of the relevant obligations under the SFO and the GEM Listing Rules. The Group adopts and implements an information disclosure policy and procedures in order to protect inside information from unauthorised and inaccurate disclosure.

The Group has strictly prohibited unauthorised use of confidential or inside information. Any inside information and any information which may potentially constitute inside information is promptly identified, assessed and escalated to the Chairman of the Board and the financial controller to decide on the need for disclosure. The audit committee of the Board regularly review and assess the effectiveness of the information disclosure policy and procedures and propose recommendations to the Board.

Regulatory Matters and Internal Control Enhancements

The Company is currently engaged in an ongoing dialogue with the Stock Exchange regarding the regulatory classification under Chapter 19 of the GEM Listing Rules of certain historical securities transactions. These transactions were executed using internal resources between 2021 and 2023.

To ensure robust corporate governance and continuous regulatory compliance, the Company implemented an enhanced pre-trade clearance system in October 2025. The enhanced internal control measures include:

- **Automated Threshold Alerts:** The external asset management company engaged by the Company (the "**Asset Management Company**") implemented an automated pre-trade check system with a conservative threshold alert set at 4.5% for applicable percentage ratios.
- **Independent Verification:** No transaction which triggers an alert may be executed until explicit, written approval has been granted by the Board, subject to an independent verification of the calculations performed by the head of compliance of the Company.
- **Ongoing Monitoring and Reporting:** The asset management company will send a monthly report containing details of acquisitions and disposals of securities to the Company's secretarial department. The company secretary of the Company reviews this report to monitor the regulatory implications of the Group's investment portfolio on an ongoing basis.
- **Targeted Compliance Training:** The Board arranged a targeted compliance training session for the relevant personnel. The said training was conducted by the Institute of Corporate and Executive Development Limited on 27 January 2026, which covered the requirements for notifiable transactions under Chapter 19 of the GEM Listing Rules.

COMPANY'S CULTURE

Our core value "integrity, people-oriented, keeping up with the times and accountability" remained the foundation and the vision of the Group. The Board believes that corporate culture underpins the long-term business, economic success and sustainable growth of the Group. A strong culture enables the Company to deliver long-term sustainable performance and fulfil its role as a responsible corporate citizen. The Company is committed to developing a positive and progressive culture that is built on its purpose and vision. Discussion on (i) the link between corporate culture and the Company's business objectives; (ii) the implementation of the desired corporate culture into the Company's daily operations; and (iii) an assessment of the progress and success of such implementation will be provided in the Environmental, Social and Governance Report 2025 which will be published on the websites of the Company and the Stock Exchange.

SHAREHOLDERS' RIGHTS

The general meetings of the Company provide a forum for the Shareholders to exchange views directly with the Board. Subject to provisions of the applicable laws in the Cayman Islands and rules and regulations of the Stock Exchange, an annual general meeting of the Company is held each year at the venue as determined by the Board. Each general meeting, other than an annual general meeting, is called an extraordinary general meeting (“**EGM**”).

Right to Convene EGMs and Procedures

Pursuant to Article 58 of the Articles, the Board may, whenever it thinks fit, convene an EGM. Any one or more Shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company having the right of voting at general meetings of the Company shall have the right, by written requisition to the Board or the secretary of the Company, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition. Such meeting shall be held within two months after the deposit of such requisition. The requisition must be deposited at the registered office or the head office of the Company.

If within 21 days of such deposit, the Board fails to proceed to convene such EGM, the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to requisitionist(s) by the Company.

Putting Forward Enquiries to the Board

To put forward any enquiries to the Board of the Company, Shareholders may send written enquiries to the Company. The Company will not normally deal with verbal or anonymous enquiries. Enquiries are dealt with in an informative and timely manner.

Contact Details

Shareholders may send their enquiries or requests as mentioned above to the following:

Address: Suite 1410-11, North Tower, World Finance Centre, 19 Canton Road, Tsim Sha Tsui, Kowloon, Hong Kong (For the attention of the Board)
Fax: +852 2928 9008
Email: info@ebrokersystems.com

For the avoidance of doubt, Shareholder(s) must deposit and send the original duly signed written requisition, notice or statement, or enquiry (as the case may be) to the above address and provide their full name, contact details and identification in order to give effect thereto. Shareholders' information may be disclosed as required by law.

COMMUNICATION WITH SHAREHOLDERS AND INVESTORS

The Company considers that effective communication with Shareholders is essential for enhancing investor relations and investor understanding of the Group's business performance and strategies. The Company endeavours to maintain an on-going dialogue with Shareholders and in particular, through annual general meetings and other general meetings. At the annual general meeting, Directors (or their delegates as appropriate) are available to meet Shareholders and answer their enquiries.

The Company maintains a website at www.ebrokersystems.com as a communication platform with the Shareholders and investors, where the financial information and other relevant information of the Company are available for public access.

The Board has reviewed the implementation and effectiveness of the Shareholders' communication policy. Having considered the multiple channels of communication and engagement in place, it is satisfied that the Shareholder's communication policy has been implemented during the Relevant Period and is effective.

Right to Put Forward Proposals at General Meetings

There are no provisions allowing shareholders to propose new resolutions at the general meetings under the Companies Law (as revised) of the Cayman Islands. Subject to provisions of the Articles, eligible Shareholders who wish to move a resolution may by means of requisition convene an extraordinary general meeting following the procedures set out above.

INVESTOR RELATIONS

The Company establishes different communication channels with investors to update them with the latest business development and financial performance including the publication of quarterly, interim and annual reports, the publish and posting of notices, announcements and circulars on the GEM website and the Company's website in order to maintain a high level of transparency.

CONSTITUTIONAL DOCUMENTS

During the Relevant Period, there was no significant change in the constitutional documents of the Company.

The latest version of the Articles of the Company is available on the websites of the Stock Exchange and the Company.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF eBROKER GROUP LIMITED

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of eBroker Group Limited (the “Company”) and its subsidiaries (the “Group”) set out on pages 31 to 77, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with HKFRS Accounting Standards issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	How our audit addressed the key audit matter
Impairment assessment of trade receivables	
<p>Refer to note 5(e) and note 25 to the consolidated financial statements.</p> <p>As at 31 December 2025, the carrying amount of trade receivables was approximately HK\$1,716,000 which represented 3.0% of the Group’s net assets.</p> <p>The Group’s trading terms with customers are due upon presentation of invoices. However, as the Group seeks to develop long-term relationship with its customers, it may allow an average credit period of 60 days to its customers, depending on the creditworthiness of customers and the existing relationships with the Group.</p>	<p>Our audit procedures in relation to management’s assessment of the recoverability of trade receivables included:</p> <ul style="list-style-type: none">– Obtaining an understanding of management’s process of assessing the impairment including the use of provision matrix;– Assessing whether trade receivables had been appropriately grouped by management based on their shared credit risk characteristics;– Testing the accuracy and completeness of the data used by management to develop the historical loss rates and assessing the sufficiency, reliability and relevance of that data;

KEY AUDIT MATTERS (CONT'D)

Key audit matters	How our audit addressed the key audit matter
Impairment assessment of trade receivables (cont'd)	
<p>Loss allowances for trade receivables are based on management's estimate of the lifetime expected credit losses ("ECL") to be incurred. The Group assesses lifetime ECL individually for debtors with credit impaired and collectively for the remaining using a provision matrix, which is estimated by taking into account the credit loss experience, aging of overdue trade receivables, customers' repayment history and customers' financial position and an assessment of both the current and forecast general economic conditions, all of which involve a significant degree of management judgement.</p> <p>We identified assessing the recoverability of trade receivable as a key audit matter because of the involvement of significant judgements and assumptions in determining the expected credit loss allowance of the trade receivables and the significance of the carrying amounts of trade receivables to the Group's consolidated financial statements.</p>	<ul style="list-style-type: none"> – Assessing the appropriateness of the impairment loss methodology, testing the calculation of the historical loss rates and evaluating the reasonableness of the forward-looking adjustments made to reflect current and forecast future economic conditions; – Testing the accuracy of the aging of trade receivables on a sample basis to supporting documents; and – Testing the calculation of expected credit loss provisions applying the provision rates to the age categories of the trade receivables outstanding at the reporting date.
Recoverability of intangible assets	
<p>Refer to note 5(c) and note 20 to the consolidated financial statements.</p> <p>As at 31 December 2025, the carrying amount of intangible assets was approximately HK\$8,983,000 which represented approximately 15.6% of the net assets of the Group.</p> <p>When performing the impairment assessment of intangible assets, the management determined the recoverable amounts with reference to the value-in-use calculations based on cash flow forecasts. Estimations of the recoverable amounts of the intangible assets are dependent on certain key assumptions that require significant management judgment for the underlying cash flow forecasts. Favourable or unfavourable changes to these assumptions would result in change in the recoverable amounts of the intangible assets as at 31 December 2025.</p> <p>We identified the impairment assessment of intangible assets as a key audit matter due to the significant management judgements were used to determine key assumptions and the significance of the carrying amounts of intangible assets to the Group's consolidated financial statements.</p>	<p>Our audit procedures in relation to the impairment assessment of intangible assets included:</p> <ul style="list-style-type: none"> – Obtaining an understanding on management's processes and controls in respect of the impairment assessment process; – Checking on a sample basis the accuracy and relevance of the input data used by the management to supporting evidence; – Discussing with the management of the Group to understand the management's basis for determining the assumptions of cash flow forecasts; – Evaluating the reasonableness of key assumptions (including sales growth rates, operating margins and discount rate) of the cash flow forecasts based on our knowledge of the business and industry and taking into account the historical financial information; and – Evaluating the historical accuracy of the cash flow forecasts by comparing historical cash flows forecast to the actual results in the current period and understanding the causes of any significant variances.

INDEPENDENT AUDITOR'S REPORT

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRS Accounting Standards issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement director on the audit resulting in this independent auditor's report is Ms. Lo Mei Yan.

According to the relevant laws in the PRC, the Group's subsidiary in the PRC is required to transfer at least 10% of its net profit after taxation, as determined under the PRC accounting regulations, to a non-distributable reserve fund until the reserve balance reaches 50% of its registered capital. The transfer to this reserve must be made before the distribution of a dividend to owners. Such reserve fund can be used to offset the previous years' losses, if any, and is non-distributable other than upon liquidation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

1. GENERAL INFORMATION

eBroker Group Limited (the “Company”) was incorporated in the Cayman Islands with limited liability under the Companies Law of the Cayman Islands on 23 May 2016. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The address of its principal place of business is Suites 1401-11, 14th Floor, North Tower, World Finance Centre, 19 Canton Road, Tsim Sha Tsui, Kowloon, Hong Kong.

The Company’s shares are listed on the GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) on 19 February 2019. The principal activity of the Company is investment holding. The principal activities of its subsidiaries (together with the Company collectively referred to as the “Group”) are set out in note 22 to the consolidated financial statements.

The consolidated financial statements are presented in thousands of units of Hong Kong dollars (HK\$’000) unless otherwise stated. Hong Kong dollars (“HK\$”) is the Company’s functional and the Group’s presentation currency.

2. BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with HKFRS Accounting Standards as issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), and the disclosure requirements of the Hong Kong Companies Ordinance. HKFRS Accounting Standards comprise the following authoritative literature:

- Hong Kong Financial Reporting Standards
- Hong Kong Accounting Standards
- Interpretations developed by the HKICPA

These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange and with the disclosure requirements of the Hong Kong Companies Ordinance (Cap.622). The material accounting policies adopted by the Group are disclosed in note 4 to the consolidated financial statements.

The HKICPA has issued certain new and revised HKFRS Accounting Standards that are first effective or available for early adoption for the current accounting period of the Group. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these consolidated financial statements.

3. ADOPTION OF AMENDMENTS TO HKFRS ACCOUNTING STANDARDS

(a) Amendments to HKFRS Accounting Standards that are mandatorily effective for the current year

The Group has applied the following amendments to HKFRS Accounting Standards issued by the HKICPA for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2025 for the preparation of the consolidated financial statements:

Amendments to HKAS 21 and HKFRS 1	Lack of Exchangeability
-----------------------------------	-------------------------

The application of the amendments to HKFRS Accounting Standards in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

3. ADOPTION OF AMENDMENTS TO HKFRS ACCOUNTING STANDARDS (CONT'D)

(b) New and amendments to HKFRS Accounting Standards in issue but not yet effective

The Group has not applied any new and amendments to HKFRS Accounting Standards that have been issued but are not yet effective for the financial year beginning 1 January 2025. These amendments to HKFRS Accounting Standards include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
Amendments to HKFRS 9 and HKFRS 7, Contracts Referencing Nature-dependent Electricity	1 January 2026
Amendments to HKFRS 9 and HKFRS 7, Amendments to the Classification and Measurement of Financial Instruments	1 January 2026
Amendments to HKFRS Accounting Standards, Annual Improvements to HKFRS Accounting Standards — Volume 11	1 January 2026
HKFRS 18, Presentation and Disclosure in Financial Statements	1 January 2027
Amendments to HK Int 5, Hong Kong Interpretation 5 Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause	1 January 2027
Amendments to HKFRS 10 and HKAS 28, Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Effective date not yet determined

Except for the new HKFRS Accounting Standards mentioned below, the directors anticipate that the application of all other amendments to HKFRS Accounting Standards will have no material impact on the consolidated financial statements in the foreseeable future.

Amendments to HKFRS 9 and HKFRS 7 Amendments to the Classification and Measurement of Financial Instruments

Amendments to HKFRS 9 and HKFRS 7 Amendments to the Classification and Measurement of Financial Instruments clarify the recognition and derecognition for financial asset and financial liability and add an exception which permits an entity to deem a financial liability to be discharged before the settlement date if it is settled in cash using an electronic payment system if, and only if certain conditions are met. An entity that elects to apply the derecognition option would be required to apply it to all settlements made through the same electronic payment system.

The amendments also provide guidance on the assessment of whether the contractual cash flows of a financial asset are consistent with a basic lending arrangement. The amendments specify that an entity should focus on what an entity is being compensated for rather than the compensation amount. Contractual cash flows are inconsistent with a basic lending arrangement if they are indexed to a variable that is not a basic lending risk or cost. The amendments state that, in some cases, a contingent feature may give rise to contractual cash flows that are consistent with a basic lending arrangement both before and after the change in contractual cash flows, but the nature of the contingent event itself does not relate directly to changes in basic lending risks and costs. Furthermore, the description of the term “non-recourse” is enhanced and the characteristics of “contractually linked instruments” are clarified in the amendments.

The disclosure requirements in HKFRS 7 Financial Instruments: Disclosures in respect of investments in equity instruments designated at fair value through other comprehensive income are amended. In particular, entities are required to disclose the fair value gain or loss presented in other comprehensive income during the period, showing separately those related to investments derecognised during the reporting period and those related to investments held at the end of the reporting period. An entity is also required to disclose any transfers of the cumulative gain or loss within equity related to the investments derecognised during the reporting period. In addition, the amendments introduce the requirements of qualitative and quantitative disclosure of contractual terms that could affect the contractual cash flow based on a contingent event not directly relating to basic lending risks and cost.

The amendments are effective for annual reporting periods beginning on or after 1 January 2026, with early application permitted. The amendments are required to be applied retrospectively, with specific exceptions. The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

3. ADOPTION OF AMENDMENTS TO HKFRS ACCOUNTING STANDARDS (CONT'D)

(b) New and amendments to HKFRS Accounting Standards in issue but not yet effective (cont'd)

HKFRS 18 Presentation and Disclosure in Financial Statements

HKFRS 18 Presentation and Disclosure in Financial Statements, which sets out requirements on presentation and disclosures in financial statements, will replace HKAS 1 Presentation of Financial Statements. This new HKFRS Accounting Standard, while carrying forward many of the requirements in HKAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures (MPMs) in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some HKAS 1 paragraphs have been moved to HKAS 8 Accounting Policies, Changes in Accounting Estimate and Errors (the title of which will be changed to Basis of Preparation of Financial Statements upon effective of HKFRS 18) and HKFRS 7. Minor amendments to HKAS 7 Statement of Cash Flows and HKAS 33 Earnings per Share are also made.

HKFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. HKFRS 18 requires retrospective application with specific transition provisions. The application of the new standard is not expected to have significant impact on the financial performance and positions of the Group in terms of recognition and measurement.

4. MATERIAL ACCOUNTING POLICY INFORMATION

These consolidated financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with HKFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 5.

The material accounting policies applied in the preparation of these consolidated financial statements are set out below.

(a) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill and any accumulated foreign currency translation reserve relating to that subsidiary.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(b) Property, plant and equipment

Property, plant and equipment are held for use in the production or supply of goods or services, or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

When the Group makes payments for ownership interest of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair value at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as right-of-use assets in the statement of financial position. When the consideration cannot be allocated reliably between non-lease building element and undivided interests in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal annual rates are as follows:

Land and buildings	Shorter of the remaining lease term or 20 years
Computer software	10%
Furniture and fixtures	20%
Office equipment	20%
Computer equipment	20%
Motor vehicles	33%

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

(c) Internally generated intangible assets

Expenditure on research activities is recognised as an expense in the period in which it is incurred. An internally generated intangible asset arising from the Group's software system development is recognised only if all of the following conditions are met:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- Management intends to complete the intangible asset and use or sell it;
- There is ability to use or sell the intangible asset;
- It can be demonstrated how the intangible asset will generate probable future economic benefits;
- Adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available;
- The expenditure attributable to the intangible asset during its development can be reliably measured.

Internally generated intangible assets are stated at cost less accumulated amortisation and impairment losses. Amortisation is calculated on a straight-line basis over their estimated useful lives of 5 years. Where no internally generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

The residual value, useful lives and amortisation method are reviewed and adjusted, if appropriate, at end of each reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(d) Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

Where the contract contains lease component(s) and non-lease component(s), non-lease components are separated from lease component and accounted for by applying other applicable standards.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less which, for the Group are primarily car park, office and rack spaces of data centers. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received.

The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses. Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

The Group presents right-of-use assets and lease liabilities separately in the consolidated statement of financial position.

(e) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method less allowance for credit losses.

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(f) Contract assets and contract liabilities

Contract asset is recognised when the Group recognises revenue before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for expected credit losses ("ECL") in accordance with the policy set out in note 4(t) and are reclassified to receivables when the right to the consideration has become unconditional.

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue. A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method.

(g) Contract for services

A contract with a customer of installation and customisation services is classified by the Group as a contract for services when the Group's performance relates to work on installation and customisation services does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date or enhance an asset under the customer's control.

When the outcome of an installation and customisation services contract can be reasonably measured, revenue from the contract is recognised progressively over time using the cost-to-cost method, i.e. based on the proportion of the actual costs incurred relative to the estimated total costs. The directors consider that this input method is an appropriate measure of the progress towards complete satisfaction of these performance obligations under HKFRS 15.

The Group becomes entitled to invoice customers for rendering of installation and customisation services based on achieving a series of performance-related milestones. When a particular milestone is reached the customer is sent an invoice for the related milestone payment. The Group will previously have recognised a contract asset for any work performed. Any amount previously recognised as a contract asset is reclassified to trade receivables at the point at which it is invoiced to the customer. If the milestone payment exceeds the revenue recognised to date under the cost-to-cost method then the Group recognises a contract liability for the difference. There is not considered to be a significant financing component in contracts with customers as the period between the recognition of revenue under the cost-to-cost method and the payment is always less than one year.

The likelihood of the Group earning contractual bonuses for early completion or suffering contractual penalties for late completion are taken into account in making these estimates, such that revenue is only recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

When the outcome of the contract cannot be reasonably measured, revenue is recognised only to the extent of contract costs incurred that are expected to be recovered.

If at any time the costs to complete the contract are estimated to exceed the remaining amount of the consideration under the contract, then a provision is recognised.

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(h) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when the Group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss ("FVTPL") and at fair value through other comprehensive income ("FVTOCI") are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(i) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Debt investments

Debt investments held by the Group are classified into one of the following measurement categories:

- Amortised cost, if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest. Interest income from the investment is calculated using the effective interest method.
- FVTOCI (recycling), if the contractual cash flows of the investment comprise solely payments of principal and interest and the investment is held within a business model whose objective is achieved by both the collection of contractual cash flows and sale. Changes in fair value are recognised in other comprehensive income, except for the recognition in profit or loss of ECL, interest income (calculated using the effective interest method) and foreign exchange gains and losses. When the investment is derecognised, the amount accumulated in other comprehensive income is recycled from equity to profit or loss.
- FVTPL, if the investment does not meet the criteria for being measured at amortised cost or FVTOCI (recycling). Changes in the fair value of the investment (including interest) are recognised in profit or loss.

Equity investments

An investment in equity securities is classified as FVTPL unless the equity investment is not held for trading purposes and on initial recognition of the investment the Group makes an election to designate the investment at FVTOCI (non-recycling) such that subsequent changes in fair value are recognised in other comprehensive income. Such elections are made on an instrument-by-instrument basis, but may only be made if the investment meets the definition of equity from the issuer's perspective. Where such an election is made, the amount accumulated in other comprehensive income remains in the investment revaluation reserve (non-recycling) until the investment is disposed of. At the time of disposal, the amount accumulated in the investment revaluation reserve (non-recycling) is transferred to accumulated losses. It is not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at FVTPL or FVTOCI, are recognised in profit or loss as other income.

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(j) Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under HKFRS Accounting Standards. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

(i) Trade and other payables

Trade and other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

(ii) Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is (i) held for trading or (ii) it is designated as at FVTPL.

(iii) Equity instruments

(1) Ordinary shares

Ordinary shares are classified as equity. An equity instrument is any contract that evidence a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(2) Shares held for share award scheme

Where shares are acquired by the trustee for the share award scheme (the "Share Award Scheme") from the market or by electing for scrip in lieu of cash dividends, the total consideration of shares acquired from the market (including any directly attributable incremental costs) or under the scrip dividend scheme is presented as shares held for Share Award Scheme and deducted from total equity.

Upon vesting, the related costs of the vested awarded shares purchased from the market and shares acquired under the scrip dividend scheme (dividend shares) are credited to shares held for Share Award Scheme, with a corresponding decrease in employee share-based compensation reserve for awarded shares, and decrease in retained earnings for dividend shares.

(k) Revenue recognition and other income

Revenue is recognised when control over a product or service is transferred to the customer, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Further details of the Group's revenue and other income recognition policies are as follows:

(i) Revenue from provision of services

Revenue is recognised when or as the control of services is transferred to the customer. Depending on the terms of the contract and the laws that apply to the contract, control of services may be transferred over time or at a point in time. Control of the services is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates and enhances an asset that the customer control as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of the performance obligation.

The progress towards complete satisfaction of the performance obligation is measured using an input method, by reference relative to total expected costs to the cost incurred to date of each individual project.

When either party to a contract has performed, the Group presents the contract in the consolidated statement of financial position as a contract asset or a contract liability, depending on the relationship between the entity's performance and the customer's payment.

For the year ended 31 December 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(k) Revenue recognition and other income (cont'd)

(i) Revenue from provision of services (cont'd)

If a customer pays consideration or the Group has a right to an amount of consideration that is unconditional, before the Group transfers services to the customer, the Group presents the contract as a contract liability when the payment is made or a receivable is recorded (whichever is earlier). A contract liability is the Group's obligation to transfer services to a customer for the Group has received consideration (or an amount of consideration is due) from the customer.

A receivable is recorded when the Group has an unconditional right to consideration. A right to consideration is unconditional if only the passage of time is required before payment of that consideration is due.

The Group provides installation and customisation services to its customers through contracts with customers. Services revenue are recognised as a performance obligation satisfied over time as the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.

Management fee income is recognised as a performance obligation satisfied over time when the services are rendered.

(ii) Revenue from the sales of hardware and software products are recognised when control of the goods has been transferred which generally coincides with the time when the goods are delivered and the title has passed to the customers. Following delivery, the customer has the primary responsibility when on selling the goods and bears the risks of obsolescence and loss in relation to the goods. A receivable is recognised by the Group when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

(l) Employee benefits

(i) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) Pension obligations

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged to profit or loss represents contributions payable by the Group to the funds.

Subsidiaries incorporated in the People's Republic of China ("PRC") participate in the retirement schemes operated by the local authorities for the Group's employees in the PRC. Contributions to these schemes are charged to profit or loss when incurred.

(iii) Long Service Payment ("LSP")

For LSP obligation, the Group accounts for the employer MPF contributions expected to be offset as a deemed employee contribution towards the LSP obligation in terms of HKAS 19.93(a) and it is measured on a net basis. The estimated amount of LSP obligation is determined after deducting the negative service cost arising from the accrued benefits (being projected and attributed to periods of service) derived from the Group's MPF contributions that have been vested with employees and would be used to offset the employee's LSP benefits, which are deemed to be contributions from the relevant employees.

(iv) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits, and when the Group recognises restructuring costs and involves the payment of termination benefits.

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(m) Share-based payments

(i) Share option scheme

The Group issues equity-settled share-based payments to certain directors, employees, substantial shareholders of the Company and other eligible person subject to be approved by the independent non-executive directors.

Equity-settled share-based payments are measured at the fair value (excluding the effect of non-market based vesting conditions) of the equity instruments at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non-market based vesting conditions.

(ii) Share award scheme

The Group operates the Share Award Scheme, which is an equity-settled share-based compensation plan under which awarded shares are granted to employees of the Group selected by the board of directors (including the executive director).

The amount to be expensed as share-based compensation expenses is determined by reference to the fair value of the awarded shares granted, taking into account all non-vesting conditions associated with the grants on grant date. The total expense is recognised on a straight-line basis over the relevant vesting periods (or on the grant date if the shares vest immediately), with a corresponding credit to an employee share-based compensation reserve under equity.

For those awarded shares which are amortised over the vesting periods, the Group revises its estimates of the number of awarded shares that are expected to ultimately vest based on the vesting conditions at the end of each reporting period. Any resulting adjustment to the cumulative fair value recognised in prior years is charged/credited to employee share-based compensation expense in the current year, with a corresponding adjustment to the employee share-based compensation reserve.

(n) Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of transaction does not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and interests in joint arrangements, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(n) Taxation (cont'd)

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to right-of-use assets and lease liabilities separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

In assessing any uncertainty over income tax treatments, the Group considers whether it is probable that the relevant tax authority will accept the uncertain tax treatment used, or proposed to be used by individual group entities in their income tax filings. If it is probable, the current and deferred taxes are determined consistently with the tax treatment in the income tax filings. If it is not probable that the relevant taxation authority will accept an uncertain tax treatment, the effect of each uncertainty is reflected by using either the most likely amount or the expected value.

(o) Related parties

A related party is a person or entity that is related to the reporting entity.

- (a) A person or a close member of that person's family is related to a reporting entity if that person:
 - (i) has control or joint control over the reporting entity;
 - (ii) has significant influence over the reporting entity; or
 - (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- (b) An entity is related to a reporting entity if any of the following conditions applies:
 - (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of the group of which it is a part, provides key management personnel services to the reporting entity or to the parent of reporting entity.

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(p) Impairment of non-financial assets

Intangible assets that are not yet available for use are reviewed for impairment annually and whenever events or changes in circumstances indicate the carrying amount may not be recoverable.

The carrying amounts of non-financial assets are reviewed at each reporting date for indications of impairment and where an asset is impaired, it is written down as an expense through the consolidated statement of profit or loss and other comprehensive income to its estimated recoverable amount. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. If this is the case, recoverable amount is determined for the cash-generating unit ("CGU") to which the asset belongs. Recoverable amount is the higher of value in use and the fair value less costs of disposal of the individual asset or the CGU.

Value in use is the present value of the estimated future cash flows of the asset/CGU. Present values are computed using pre-tax discount rates that reflect the time value of money and the risks specific to the asset/CGU whose impairment is being measured.

Impairment losses for CGU are allocated first against the goodwill of the unit and then pro rata amongst the other assets of the CGU. Subsequent increases in the recoverable amount caused by changes in estimates are credited to profit or loss to the extent that they reverse the impairment.

The Group recognises a loss allowance for ECL on investments in debt instruments that are measured at amortised cost, trade receivables and contract assets. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables and contract assets, excluding those credit impaired debtors which are assessed individually. The ECL on these financial assets are estimated using a provision matrix, based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(q) Impairment of financial assets and contract assets (cont'd)

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- (i) the financial instrument has a low risk of default;
- (ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a financial asset to have low credit risk when the asset has external credit rating of "investment grade" in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of "performing". Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(q) Impairment of financial assets and contract assets (cont'd)

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the counterparty;
- a breach of contract, such as a default or past due event;
- the lender(s) of the counterparty, for economic or contractual reasons relating to the counterparty's financial difficulty, having granted to the counterparty a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the counterparty will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, including when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

(r) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

(s) Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are discussed below.

Key sources of estimation uncertainty

(a) Impairment of property, plant and equipment and right-of-use assets

Property, plant and equipment and right-of-use assets are stated at costs less accumulated depreciation and impairment, if any. In determining whether an asset is impaired, the Group has to exercise judgment and make estimation, particularly in assessing: (i) whether an event has occurred or any indicators that may affect the asset value; (ii) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (iii) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset (including right-of-use assets), the Group estimates the recoverable amount of the CGU to which the assets belongs. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the recoverable amounts.

The carrying amount of property, plant and equipment and right-of-use assets as at 31 December 2025 were approximately HK\$9,880,000 (2024: HK\$11,238,000) and approximately HK\$1,876,000 (2024: HK\$3,425,000) respectively, after taking into account the impairment losses of approximately HK\$1,085,000 (2024: HK\$118,000) of property, plant and equipment. No impairment loss of right-of-use assets recognised for both years. Details of impairment assessment of property, plant and equipment refer to note 19.

(b) Revenue recognition

As explained in policy notes 4(f) and 4(k) revenue from provision of installation and customisation services is recognised over time. Such revenue and profit recognition on uncompleted projects is dependent on estimating the total outcome of the contract, as well as the work done to date. Based on the Group's recent experience, the Group has made estimates of the point at which it considered the work was sufficiently advanced such that the outcome of the contract can be reasonably measured. Until this point is reached the related contract assets disclosed in note 24(a) do not include profit which the Group might eventually realise from the work done to date. In addition, actual outcomes in terms of total cost or revenue may be higher or lower than estimated at the end of the reporting period, which would affect the revenue and profit recognised in future years as an adjustment to the amounts recorded to date.

During the year, approximately HK\$2,247,000 (2024: HK\$3,227,000) of revenue from installation and customisation services was recognised.

(c) Recoverability of intangible assets

Determining whether intangible assets are impaired requires an estimation of the value in use of the cash flow forecasts to which intangible assets have been allocated. The value in use calculation requires the Group to estimate the recoverable amount expected to arise from the cash flow forecasts and a suitable discount rate in order to calculate the estimations of the recoverable amount.

The carrying amount of the capitalised development costs on software system at 31 December 2025 was approximately HK\$8,983,000 (2024: HK\$6,814,000). Impairment losses on intangible assets of approximately HK\$454,000 (2024: HK\$763,000) was recognised during the year. Details of the impairment assessment refer to note 20 to the consolidated financial statements.

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES (CONT'D)

Key sources of estimation uncertainty (cont'd)

(d) Estimated useful lives of intangible assets

The estimated useful lives of intangible assets reflect management's estimation on the Group's intention to derive future economic benefits from the intangible assets. The management performs annual reviews of whether the assumptions made of useful lives continue to be valid. When useful lives of intangible assets are different from those previously estimated, the amortisation charges for future periods will be adjusted accordingly.

(e) Impairment of trade receivables and contract assets

The management of the Group estimates the amount of impairment loss for ECL on trade receivables and contract assets based on the credit risk of trade receivables and contract assets. The assessment of the credit risk of trade receivables and contract assets involves estimation uncertainty as it involves the determination of loss rates for debtors that are assessed individually. The amount of the impairment loss based on ECL model is measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition. Where the future cash flows are less than expected, or being revised downward due to changes in facts and circumstances, a material impairment loss may arise.

As at 31 December 2025, the carrying amounts of trade receivables and contract assets are approximately HK\$1,716,000 (net of allowance for credit losses of approximately HK\$444,000) and approximately HK\$248,000 respectively (2024: HK\$2,712,000 (net of allowance for credit losses of approximately HK\$380,000) and approximately HK\$375,000 respectively). Details of the allowance of credit losses are set out in note 6(b).

6. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, credit risk, liquidity risk, interest rate risk and other price risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Foreign currency risk

The Group has certain exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in the functional currencies of Group entities such as HK\$ and Renminbi ("RMB"), but certain business transactions, assets and liabilities are denominated in currencies other than their functional currencies such as RMB, United States dollars ("US\$") and Japanese yen ("JPY"). The HK\$ currently closely aligned to the US\$. The Group does not expect any significant movement in the HK\$/US\$ exchange rate.

At 31 December 2025, if the HK\$ had strengthened/weakened 10 percent against RMB with all other variables held constant, consolidated loss after tax for the year would have been approximately HK\$512,000 (2024: HK\$377,000 lower/higher, arising mainly as a result of the net foreign exchange loss/gain on other receivables, bank balances, financial assets at FVTPL and trade payables denominated in RMB.

At 31 December 2025, if the HK\$ had strengthened/weakened 10 percent against the JPY with all other variables held constant, consolidated loss after tax for the year would have been approximately HK\$91,000 (2024: HK\$40,000) higher/lower, arising mainly as a result of the foreign exchange loss/gain on other payables and financial liabilities at FVTPL denominated in JPY.

6. FINANCIAL RISK MANAGEMENT (CONT'D)

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade and other receivables) and from its financing activities, including deposits with banks and financial institutions. Management has a credit policy in place and the exposure to these credit risks are monetised on an ongoing basis.

As at 31 December 2025, the Group's concentration of credit risk by geographical locations is mainly in Hong Kong, which accounted for 99% (31 December 2024: 94%) of the total trade receivables.

Bank balances and non-pledged time deposits with original maturity within three months

The credit risk on bank balances and non-pledged time deposits with original maturity within/over three months are limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies for which the Group considers to have low credit risk.

Trade receivables and contract assets

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are due from the date of billing. Normally, the Group does not obtain collateral from customers.

Except for those with credit-impaired balances are individually assessed, the Group measures loss allowance for trade receivables and contract assets at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

The following table provides information about the Group's exposure to credit risk and ECLs for trade receivables and contract assets as at 31 December 2025 and 2024:

	2025

Individually impaired	100.00%	139	139
		3,467	380

Except for trade receivables with credit-impaired balances are assessed individually, the expected loss rates for remaining trade receivables and contract assets are based on actual loss experience over the past four years. These rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

Movement in the loss allowances for trade receivables and contract assets during the year is as follows:

	Total HK\$'000
As at 1 January 2024	525
Impairment losses recognised, net of reversal	151
Written-off	(296)

6. FINANCIAL RISK MANAGEMENT (CONT'D)

(c) Liquidity risk

The Group's objective and policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The maturity analysis based on contractual undiscounted cash flows of the Group's non-derivative financial liabilities is as follows:

	Weighted average interest rate %	On demand or less than 1 year HK\$'000	Between 1 and 2 years HK\$'000	Between 2 and 5 years HK\$'000	Over 5 years HK\$'000	Total undiscounted cash flows HK\$'000	Carrying amounts HK\$'000
At 31 December 2025							
Trade and other payables	–	2,640	–	–	–	2,640	2,640

		4,134	585	–	–	4,719	4,633
At 31 December 2024							
Trade and other payables	–	2,941	–	–	–	2,941	2,941
Lease liabilities	6.50%	1,706	2,079	–	–	3,785	3,526
		4,647	2,079	–	–	6,726	6,467

(d) Interest rate risk

The Group's exposure to interest rate risk arises from its bank balances, non-pledged time deposits with original maturity within three months and lease liabilities. The bank balances bear interests at variable rates varied with the then prevailing market condition. The Group's non-pledged time deposit with original maturity within three months and lease liabilities bear interests at fixed interest rate and therefore are subject to fair value interest rate risk.

The Group does not have significant exposure on interest rate risk. Except as stated above, the Group has no other interest-bearing assets and liabilities as at the end of the reporting period, its income and operating cash flows are substantially independent of changes in variable interest rates.

(e) Other price risk

The Group is exposed to equity price risk through its investments in listed equity securities measured at FVTPL and FVTOCI at the end of the reporting period, the management of the Group manages this exposure by maintaining a portfolio of investments with different risks profile.

Sensitivity analysis

The sensitivity analysis have been determined based on the exposure to equity price risk at the reporting date.

If the prices of the respective equity instruments had been 10% higher/lower, the post-tax loss for the year ended 31 December 2025 would decrease/increase by approximately HK\$1,110,000 (2024: HK\$792,000) as a result of the changes in fair value of financial assets and liabilities at FVTPL and FVTOCI.

(g) Fair values

The carrying amounts of the Group's financial assets and financial liabilities as reflected in the consolidated statement of financial position approximate their respective fair values.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

7. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

Disclosures of level in fair value hierarchy at 31 December 2025 and 2024:

12. SEGMENT INFORMATION

During the year, all of the Group's contract revenue has been generated from provision of front office and back office solution service, installation and customisation service, managed cloud service and sale of computer products.

The Group has one reportable segment which is the provision of services to the Group's customers. Information reported to the executive directors, being the Group's chief operating decision maker ("CODM"), for the purpose of resources allocation and assessment of the Group's performance, is focused on the operating results of the Group as a whole as the Group's resources are integrated and no discrete financial information is available. Accordingly, no segment analysis or information about the Group's services is presented.

The following table sets out information about the geographical location of (i) the Group's revenue from customers and (ii) the Group's property, plant and equipment, right-of-use asset and intangible assets ("specified non-current assets"). The geographical location of customers is based on the location of which the services were provided or the goods delivered. The geographical location of the specified non-current assets is based on the physical location of the assets, in the case of property, plant and equipment and right-of-use assets and the location of the operation to which they are allocated, in the case of intangible assets.

	Revenue from customers		Specified non-current assets

14. INCOME TAX CREDIT

Income tax credit has been recognised in profit or loss as follows:

	2025 HK\$'000	2024 HK\$'000
Hong Kong Profits Tax		
Current tax	–	5
Deferred tax credit (note 27)	(214)	(238)
	(214)	(233)

Under two-tiered profits tax rates regime of Hong Kong Profits Tax, the first HK\$2 million of profits of the qualifying group entities will be taxed at 8.25% and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%. Accordingly, the Hong Kong Profits Tax of the qualifying group entities is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million. No provision was made for both years as there is no assessable profit.

Under the Law of the PRC on Enterprise Income Tax (the “EIT Law”) and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiary is 25% for both years. No provision was made for both years as the subsidiary has incurred tax loss.

Tax reconciliation between the income tax credit and the product of (loss)/profit before tax multiplied by the applicable rates is as follows:

	2025 HK\$'000	2024 HK\$'000
Loss before tax	(3,940)	(2,948)

(a) Retirement benefit scheme contributions

The Group operates a mandatory provident fund scheme (the "MPF Scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for all qualifying employees in Hong Kong. The Group's contributions to the MPF Scheme are calculated at 5% of the salaries and wages subject to a monthly maximum amount of HK\$1,500 per employee and vest fully with employees when contributed into the MPF Scheme.

The employees of the Group's subsidiary established in the PRC are members of a central pension scheme operated by the local municipal government. This subsidiary is required to contribute certain percentage of the employees' basic salaries and wages to the central pension scheme to fund the retirement benefits. The local municipal government undertakes to assume the retirement benefits obligations of all existing and future retired employees of this subsidiary. The only obligation of this subsidiary with respect to the central pension scheme is to meet the required contributions under the scheme.

19. PROPERTY, PLANT AND EQUIPMENT (CONT'D)

The carrying amounts of owner-occupied leasehold land and buildings in the PRC of approximately RMB8,736,000 (equivalent to approximately HK\$9,722,000) (2024: approximately RMB10,295,000, equivalent to approximately HK\$10,955,000) at the end of the year included both the leasehold land and building elements in property, plant and equipment, and allocations of the carrying amounts between the leasehold land and buildings elements cannot be made reliably. The remaining lease term of ownership interests in leasehold land and buildings held for own use is last between 10 and 50 years.

The recoverable amounts of the owner-occupied leasehold land and buildings have been determined based on their fair value less costs of disposal. The Group uses direct comparison method to estimate the fair value less costs of disposal of the assets which is based on the recent transaction prices for similar properties adjusted for nature, location and conditions of the property. The fair value measurement is categorised into Level 3 fair value hierarchy. The key assumptions are location difference of comparable properties and price per square meter. The relevant assets were impaired to their recoverable amount of approximately HK\$9,722,000 (2024: HK\$10,955,000), which is their carrying values at year end and the impairment of approximately HK\$1,085,000 (2024: HK\$118,000) has been recognised in profit or loss within the relevant functions to which these assets relate during the year ended 31 December 2025.

20. INTANGIBLE ASSETS (CONT'D)

For the year ended 31 December 2025, an impairment losses of approximately HK\$454,000 (2024: HK\$763,000) was recognised, which represent the software system of the Group write-down to the recoverable amounts as a result of decreasing profitability generated. The impairment loss was recognised in the consolidated statement of profit or loss and other comprehensive income as other impairment losses. The recoverable amounts have been determined with reference to the value-in-use calculations of the groups of cash-generating units ("the groups of CGUs") based on cash flow projections from approved budgets covering of five years which is the expected useful life of these software system estimated by the management. Such income approach is an appropriate valuation method that can reflect the value of cash flow generated by continuous operation of the assets, which is consistent with the requirements under HKAS 36 in determining the value in use of the groups of CGUs.

Budgeted revenue generated and annual growth rates are determined based on the past performance on similar development of software systems and management's expectations for the market development. The average growth rate used in forecast for the groups of CGUs range from 1% to 27%. The pre-tax discount rates used range from approximately 17.40% to 30.94% (2024: 11.08%). The pre-tax discount rate reflects the specific risks related to the business and industry in which the groups of CGUs operates. The directors of the Company are not currently aware of any other probable changes that would necessitate adjustments to its key estimates.

30. PROVISIONS FOR LONG SERVICE PAYMENTS

Obligation to pay LSP under Hong Kong Employment Ordinance (Chapter 57)

For the Group's subsidiaries operating in Hong Kong, pursuant to the Employment Ordinance, Chapter 57, the Group has the obligation to pay LSP to qualifying employees in Hong Kong under certain circumstances (e.g. dismissal by employers or upon retirement), subject to a minimum of 5 years employment period, based on the following formula:

Last monthly wages (before termination of employment) × 2/3 × Years of service

Last monthly wages are capped at HK\$22,500 while the amount of long service payment shall not exceed HK\$390,000. This obligation is accounted for as a post-employment defined benefit plan.

Furthermore, the Mandatory Provident Fund Schemes Ordinance passed in 1995 permits the Group to utilise the Group's mandatory MPF contributions, plus/minus any positive/negative returns thereof, for the purpose of offsetting LSP payable to an employee (the "Offsetting Arrangement").

The Amendment Ordinance was gazetted on 17 June 2022, which abolishes the use of the accrued benefits derived from employers' mandatory MPF contributions to offset the LSP. The Abolition will officially take effect on the Transition Date (i.e., 1 May 2025). Separately, the Government of the HKSAR is also expected to introduce a subsidy scheme to assist employers for a period of 25 years after the Transition Date on the LSP payable by employers up to a certain amount per employee per year.

Under the Amendment Ordinance, the Group's mandatory MPF contributions, plus/minus any positive/negative returns, after the Transition Date can continue to be applied to offset the pre-Transition Date LSP obligation but are not eligible to offset the post-Transition Date LSP obligation. On the other hand, the accrued benefits derived from the Group's voluntary contributions made pre-, on or post-transition can continue to be used to offset pre- and post-transition LSP. Furthermore, the LSP obligation before the Transition Date will be grandfathered and calculated based on the last monthly wages immediately preceding the Transition Date and the years of service up to that date. The Amendment Ordinance has impact on the Group's LSP obligation with respect to employees that participate in MPF Scheme and the Group has accounted for the LSP obligation, taking into account the Abolition, in accordance with the material accounting policies as disclosed in note 4.

The provision of LSP as at 31 December 2025 has been arrived at based on a valuation carried out by Asset Appraisal Limited, independent and professional qualified valuer not connected with the Company. The valuation was determined by using the projected unit credit method.

31. SHARE CAPITAL

The Group

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maximise the return to the shareholders through the optimisation of the debt and equity balance. At 31 December 2025, the ratio of the Group's total liabilities over its total assets was 14.93% (2024: 12.44%).

The Group reviews the capital structure frequently by considering the cost of capital and the risks associated with each class of capital. The Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debts, redemption of existing debts or selling assets to reduce debts.

The externally imposed capital requirements for the Group are in order to maintain its listing on the GEM of the Stock Exchange it has to have a public float of at least 25% of the shares.

The Group receives a report from the share registrars weekly on substantial share interests showing the non-public float and it demonstrates continuing compliance with the 25% limit throughout the year. As at 31 December 2025, 29.18% (2024: 25.61%) of the shares were in public hands.

33. RESERVES

a. The Group

The amounts of the Group's reserves and movements therein are presented in the consolidated statement of profit or loss and other comprehensive income and consolidated statement of changes in equity.

b. Nature and purpose of reserves

i. Share premium account

Share premium represents premium arising from the issue of shares at a price in excess of their par value per share and is not distributable but may be applied in paying up unissued shares of the Company to be issued to the shareholders of the Company as fully paid bonus shares or in providing for the premiums payable on repurchase of shares.

ii. Capital reserve

The capital reserve arose as a result of the followings:

- As a result of group reorganisations implemented in 2013 and 2016, the capital reserve represented the difference between the nominal value of share capital of the Company and the paid-up capital of eBroker (BVI) pursuant to the group reorganisations.
- As part of the group reorganisation in 2016, the Group recorded a deemed distribution of approximately HK\$13,240,000 in the capital reserve.

iii. Foreign currency translation reserve

The foreign currency translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

34. SHARE-BASED PAYMENTS

a. Share option scheme

The Company has adopted a share option scheme (the “Scheme”) pursuant to a resolution passed by the shareholders of the Company at an extraordinary general meeting on 22 January 2019. The purpose of the Scheme is to provide incentives and rewards to eligible participants who contribute to the success of the Group’s operations. The Scheme, unless otherwise cancelled or amended, will remain in force for 10 years after the date on which the Scheme is adopted.

The total number of securities available for issue under the Scheme is 123,000,000 ordinary shares, being 10% of the issued shares of the Company as at the date of this report. The maximum number of share options permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the ordinary shares in issue at any time. The maximum number of shares issuable under share options granted to each eligible participant in the Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit subject by the Company’s shareholder in general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive Directors. In addition, any share options granted to a substantial shareholder or an independent non-executive Director, or to any of their associates, in excess of 0.1% of the shares in issue at any time or with an aggregate value (based on the closing price of the Company’s shares at the date of grant) in excess of HK\$5 million, within any 12-month period, are subject to Shareholders’ approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 28 days from the date of grant. A consideration of HK\$1.00 is payable on the acceptance of the offer of grant of an option. The exercise period of the share options granted is determinable and notified by the directors, but shall end not later than 10 years from the date on which the share option is deemed to be granted and accepted in accordance with the Scheme.

The exercise price of share options is determinable by the Directors, but may not be less than the higher of (i) the Stock Exchange closing price of the shares on the date of offer of the share options which must be a business day; (ii) the average Stock Exchange closing price of the Shares for the five business days immediately preceding the date of offer; and (iii) the nominal value of the shares on the date of the offer.

No share option has been granted since the adoption of the Scheme.

b. Share award scheme

On 12 August 2019 (the “Adoption Date”), the Company adopted the Share Award Scheme. The objectives of the Share Award Scheme is to provide (i) to recognise the contributions by certain employees and to provide them with incentives in order to retain them for the continual operation and development of the Group; and (ii) to attract suitable personnel for further development of the Group.

Subject to any early termination as may be determined by the board of directors pursuant to the rules of the Share Award Scheme (the “Scheme Rules”), the Share Award Scheme shall be valid and effective for a term of 10 years commencing on the Adoption Date.

The Share Award Scheme is subject to the administration of the board of directors and a trustee in accordance with the Scheme Rules and a trust deed.

The board of directors may, from time to time, at its absolute discretion select any eligible person (other than any excluded person) for participation in the Share Award Scheme as a selected person (the “Selected Person”), and grant such number of share awarded shares to any Selected Person at no consideration and in such number and on and subject to such terms and conditions as it may in its absolute discretion determine.

The maximum number of shares which may be awarded to a Selected Person under the Share Award Scheme shall not exceed 1% of the issued share capital of the Company from time to time. The board of directors shall not make any further award of share awarded shares which will result in the number of the shares awarded by the board of directors under the Share Award Scheme exceeding 10% of the issued share capital of the Company from time to time.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

34. SHARE-BASED PAYMENTS (CONT'D)

b. Share award scheme (cont'd)

Subject to the terms and conditions of the Share Award Scheme and the fulfillment of all relevant vesting conditions, the respective share awarded shares held by the trustee on behalf of a Selected Person pursuant to the provision of the scheme rules shall vest in such Selected Person in accordance with the vesting schedule (if any) and the trustee shall cause the share awarded shares to be transferred to such Selected Person on the vesting date.

For details of the Share Award Scheme are set out in the Company's announcements dated 12 August 2019, 20 August 2019, 3 October 2019 and 28 November 2019.

On 13 May 2024, the Board resolved to grant an aggregate of 5,040,000 award shares (the "4th Lot Award Shares") under the Share Award Scheme, all in the form of existing shares, to 13 selected persons ("Selected Persons Group D"). Subject to the satisfaction of the vesting conditions, 50% of the 4th Lot Award Shares shall be vested to the respective Selected Persons Group D on 31 December 2024 and the remaining 50% of the 4th Lot Award Shares shall be vested to the respective Selected Persons Group D on 31 December 2025.

The 4th Lot Award Shares represented approximately 0.41% of the total number of shares in issue of the Company as at the date of grant. Based on the closing price of HK\$0.08 per share of the Company on the date of grant of the 4th Lot Award Shares, the market value of the 5,040,000 award shares in aggregate was approximately HK\$403,200.

Out of 5,040,000 award shares, 2,805,000 and 2,235,000 award shares have been vested to Selected Person Group D on 31 December 2025 and 31 December 2024 respectively and recognised as staff costs in the consolidated financial statements for the year ended 31 December 2025 and 31 December 2024.

Movements of the awarded shares granted under the Share Award Scheme are as follow:

	Number of awarded shares granted '000
Granted on 13 May 2024	5,040
Vested on 31 December 2024	(2,235)
Unvested on 31 December 2024	2,805
